Coach Hatcher:

I would like to personally commend the "Shoot for the Stars" Program and the United States Army for their commitment and dedication in response to the staggering high school drop-out rate and on-going violence that is plaguing our nation's schools.

The "Shoot for the Stars" Program not only provides our youth with viable career alternatives such as the United States Army but goes a step further to motivate our youth in making positive career choices and lifestyles.

The Norfolk Public School System looks forward to working with the Champions 4 Champions, "Shoot for the Stars" Program and the United States Army in an effort to save our youth.
